

What will SB 281 do?

1. It will allow the entire population of Rosebud County to levy support for the only extended care facility in Rosebud County.
2. The locally approved levy will provide consistent financial support during a time when the level of Medicaid reimbursement does not meet the cost of providing services through the extended care of Rosebud Health Care Center, to our community.
3. It will sustain the viability of the only extended care facility within Rosebud County.

What SB 281 does not do!

1. It is not meant to build a new extended care facility within Rosebud County
2. It will not duplicate services within Rosebud County
3. Passing 281 does not raise taxes. Rosebud County voters will decide whether or not to support a levy to support the nursing home.
